Dear Sir/Madam,

Request for Internship Training for Higher Diploma in Software Engineering Student

The Higher Diploma in Software Engineering is a comprehensive academic program conducted by the National Institute of Business Management (NIBM). The program is designed to provide students with strong theoretical knowledge and practical competencies in the field of software engineering and related technologies.

As part of the academic curriculum, students are required to undergo a six-month internship training period in a recognized organization to gain industrial exposure, enhance their technical and professional skills, and apply classroom learning in real-world working environments. This internship plays a vital role in developing the student's practical understanding, work ethics, and career readiness.

We would highly appreciate it if you could kindly consider providing internship training in the field of Software Engineering at your esteemed organization for the following student:

Mr. Chamikara Weerasinghe - KAHDS242F-015

The internship is intended to support the completion of his academic requirements, and we are confident that this opportunity will be mutually beneficial to both the student and your organization.

If you require any further information or clarification, please feel free to contact the undersigned. We sincerely appreciate your continued support and cooperation in facilitating industrial training opportunities for our students.

Thank you.

Yours faithfully,

.....
Ms. Anjula Weerasinghe
Consultant/Lecturer (Staff Advisor)
